NOTICE OF ALLOWANCE

Response to Arguments

1. Applicant's amendments have been fully considered and are persuasive. The rejection of claims 1-15 under 35 USC 112 as being indefinite for failing to distinctly claim the invention have been withdrawn.
2. The examiner acknowledges the applicants invoking the use of 35 USC 111 6th paragraph with regards to claims 6-8, 14, and 15.

Allowable Subject Matter

3. Claims 1-15 allowed.
4. The following is an examiner's statement of reasons for allowance:

It was not found to be taught in the prior art of passively copying a data packet at a firewall, analyzing the passively copied packet with the firewall to determine if the packet is authorized to access the computer system if the data packet is authorized to access the computer system. The applicant has defined the use of passive copying as that wherein "The passive copying by the firewall of the packet is a low level operation that does not change the contents of the packet. Consequently, no address from the firewall is added to the packet, including the MAC address" as is found in the applicant's specification in paragraph 27.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
